SUPERIOR INSTRUCTION

The ESL for Business program is taught by the Founder and CEO of Skill House Learning, Daniel Lipton. Daniel has a Master of Arts degree in Education and multiple years of experience teaching the English language in the United States and China.

ESL FOR BUSINESS

ESL for increasing sales and reducing costs for your business.

COST EFFECTIVENESS

We understand that your business needs to minimize costs and maximize return on investment. Improving your staff's English language skills will improve sales, negotiation results, and productivity. Here at Skill House Learning, our ESL for Business programs provide you with the most bang for your buck by customizing your English learning experience to match your specific educational needs, timing, and schedule. Every ESL program will vary in duration, frequency, and class size. In addition, various program designs may require specialized materials. Our pricing varies based on these factors.

ESL FOR BUSINESS

The ESL for Business program provides your employees with the skills to effectively communicate in English with customers and staff. We develop a customized program specifically for your organization's needs that include both oral and written communication. We can develop English language programs for any business or organization. Whatever your unique learning goals are, Skill House Learning can develop an effective ESL program for you.

“WE PROVIDE YOU WITH A PATHWAY TO SUCCESSFULLY LEARNING ENGLISH AS A SECOND LANGUAGE.”

OUR PROGRAM

We conduct needs analysis interviews with your managers and HR coordinators to identify the specific educational needs of your company. From these interviews, we develop a custom ESL for Business program unique to your organization. We then conduct placement tests to assess the students' current level of English competence. Lastly, we tailor the program to meet the students' specific educational needs.

ACCOUNTABILITY

Being able to track learning is essential to making sure we fulfill your educational needs in the shortest time possible. During your Business ESL program, we provide assessment at the beginning, during the course, and at the end to ensure effective learning.

ASSESSMENT

At key points during the program, we will perform assessments to test students' mastery of the material we covered in class. This provides the client and Skill House Learning information on the efficacy of the program which can be modified for maximized proficiency.
